## **About Animal Care Australia**

Animal Care Australia (ACA) is a national incorporated association lobbying for and advocating for higher welfare outcomes for animals by educating hobbyists and keepers and lobbying governments.

ACA was founded in early 2018 to establish an organisation run solely by volunteers to lobby for real animal welfare. With extreme animal rights and animal liberationist ideologies influencing government legislation, regulation and policy at our expense and to the detriment of our animals and pets, it has become necessary to provide government with a balancing voice.

By uniting the broad spectrum of animal groups, collectively we offer an experienced, sensible approach to animal welfare. We estimate our foundation ACA clubs currently represent well over 150,000 members and that is just in NSW alone!

By educating our members and the general public about the importance of treating animals with kindness and respect for their needs, and promoting the humane treatment of animals to improve animal welfare outcomes, Animal Care Australia is in the unique position of lobbying and advocating for all animals within our care.

Animal Care Australia provides priority to the following:

- lobbying government for stronger welfare outcomes
- lobbying government to increase education of the public in animal welfare and best care techniques
- educate the public on handling their animals with kindness & respect and the importance of their needs
- educate the public in the differences between animal welfare and animal rights
